# HANDS-ON TRAINING PROGRAMME ON BIOPROCESSING

## SPONSORED PROGRAMME UNDER NATIONAL BIOPHARMA MISSION

The workshop at IIT Delhi will offer a comprehensive overview on various relevant techniques required for biopharmaceutical process development and optimization. All areas of bioprocess development—upstream processing, harvest technologies, downstream processing and analytical characterisation—are interdependent. Bioprocess development and optimization ideally proceeds using an integrated approach of the above techniques. Currently, there is an increased demand for scientists trained in bioprocess technology who can translate new discoveries into industrial-scale production and work at the interface of biology and engineering science.

## WHO CAN ATTEND ?

INDUSTRY PERSONNEL, STARTUP FOUNDERS, FACULTY MEMBERS, SCIENTISTS AND RESEARCHERS

MODULE - I  
20 - 21 JUNE  
**UPSTREAM PROCESSING**

MODULE - II  
21 - 22 JUNE  
**HARVEST TECHNOLOGIES**

MODULE - III  
22 - 23 JUNE  
**DOWNSTREAM PROCESSING**

MODULE - IV  
23 - 24 JUNE  
**ANALYTICAL CHARACTERIZATION**

## PROGRAMME HIGHLIGHTS

1. Workshop covering hands-on session in industry specific cutting edge technologies.
2. Renowned national and international industry experts as trainers and speakers.
3. Excellent opportunity to interact and collaborate with innovators and entrepreneurs.
4. Applicants shall be able to select either one of the four modules for hands-on training.
5. Sponsored 2-day hands-on workshop including accommodation for outstation participants.

**Date : 20 - 24 June 2022**

**Venue:**  
DBT-CoE Center for  
Biopharmaceutical Technology,  
Indian Institute of Technology, Delhi
